Ayer's
Cherry Pectoral,

For Diseases of the Throat and Lungs,
such as Coughs, Colds, Whooping
Cough, Bronchitis, Asthma,
and Consumption.

Among the great
discoveries of modern
science, few are of
more real value to
mankind than this ef-
fective remedy for all
diseases of the Throat
and Lungs. A vast
trial of its virtues,
throughout this and
other countries, has
shown that it does
sorely and effectively
control them. The testimony of our best citi-
zens, of all classes, establishes the fact, that
Ayer's Cherry Pectoral, will do more to
cure the affections of the Throat and Lungs
beyond any other medicine. The most dan-
gerous affections of the Pulmonary Organs
yield to its power; and cases of Consumption,
cured by this preparation, are publicly known,
so remarkable as hardly to be believed, were
they not proven beyond dispute. As a remedy,
it is adequate, on which the public may rely
for full protection. By curing Coughs, the
forerunners of more serious diseases, it saves un-
numbered lives, and an amount of suffering not
to be computed. It challenges trial, and con-
vinces the most sceptical. Every family should
keep it on hand as a protection against the early
and unperceived attack of Pulmonary Affec-
tions, which are easily met at first, but which
become incurable, and too often fatal, if ne-
glected. Tender lungs need this defense; and it
is unwise to do without it. As a safeguard to
children, and the delicate and delicate, who
suffer from the Throat and Lungs, Ayer's
Cherry Pectoral is invaluable; for, by its timely use,
multitudes are rescued from premature graves,
and saved to the love and affection of their
parents. It not only cures and restores health,
but it is a powerful and sure remedy against
croup, whooping cough, and all other diseases
of the Throat and Lungs, which are easily met
at first, but which become incurable, and too
often fatal, if neglected. Tender lungs need
this defense; and it is unwise to do without it.

Originally the product of long, laborious,
and successful chemical investigation, no cost or
effort is spared in making every bottle in the
most perfect perfection. It may be confidently
relied upon as possessing all the virtues it has
earned, and capable of producing cures as
wonderful as the greatest it has ever effected.

REPUBLICAN STATE TICKET.

For State Treasurer,
THOMAS S. RIDGWAY,
Of Gallatin.
For Superintendent of Public Instruction,
WILLIAM B. POWELL,
Of Kane.
For Congress, 11th District,
JOSEPH G. CANNON,
Of Douglas.

Henry Ward Beecher's paper—the Christian Union—which has thus far studiously maintained silence in reference to the great scandal, speaks at last. In its last issue it reviews the case, and while conceding that Mr. Beecher has "made many mistakes," denies that he has ever "erred ignobly," and predicts "sooner or later the world will know the truth."

THE Alabama Democrats have given Sloss the cold shoulder. When next he feels called upon to ally out with his shot gun, Mr. Sloss will know better than to pop over a white man when there are so many "niggers" about. If, instead of riddling with buckshot the epidemic of the traducer of his daughter's character, he had given a colored voter his quietus, Mr. Sloss would now have the undying gratitude of his constituency, and made his calling and re-election to Congress sure.

THAT Tennessee Democratic Convention was a nice affair—a sort of rebel army reunion. All Hood's old officers were there. One of the leading ideas appears to have been to shape matters so as to put General William B. Bates on the track for the Senate. Andy may as well retire from the contest. He has been a pretty good friend to the rebel element since the war, but during that interesting episode he was so weak as to manifest decided symptoms of patriotism, and though he repented in sack cloth and ashes he cannot help himself now.

THERE are now said to be in the vaults in the office of the Comptroller of the Currency at Washington about \$12,000,000 in new circulating notes of national banks, ready for issue as soon as the banks shall have redeemed the notes sent them by them for redemption and destruction. These new ones are intended to take the place of soiled and mutilated notes of the various banks and have accumulated since the new currency act went into operation two months ago. New notes can, under existing circumstances, be supplied more rapidly than the clerical work of redemption can be discharged, but this enormous accumulation is at present attributable to the inadequacy of the clerical force employed in the new redemption division of the Treasury, which, though about fairly in working order, is not yet sufficiently well organized to transact its immense business with the requisite facility and dispatch. When regularly begun, in the course of a few days, the work of destroying old notes and replacing them with new ones will progress with satisfactory rapidity. There has been no destruction of mutilated notes sent to Washington for redemption since July 1.

As beautiful a fight as anybody would care to see occurred in the Democratic Convention of the 12th Ohio Congressional District, which adjourned yesterday. There were no blows exchanged of course, but for good, honest hating the occasion was unsurpassed in the annals of recent American politics. Five candidates, all "leaders" in the party, were put up for nomination. They were the Chairman of the State Central Committee, the Chairman of the State Executive Committee, the Speaker of the House in the Legislature, an ex-member of Congress, and the President of the late Democratic State Convention. The gentleman last mentioned was by no means generally recognized as Gen. Thomas L. King, who, besides his eminent services to the party enjoys the rather remote claim to distinction conveyed by the relationship of brother-in-law to Gen. Sherman. We notice all these honorable officers in detail with a view of showing the kind of "claims" that were pressed before the Convention and the queer sort of thing American political conventions have come to be. Five hundred and twenty-nine ballots were taken to decide between the contestants. The one finally chosen was A. J. Walling, Chairman of the State Central Committee.

GET OUT!

The Independent-Reform Congressional convention for the Twelfth District, held in Springfield, September 1, unanimously adopted the following resolution:

WHEREAS, We have heard that S. M. Etter, nominee of the Independent-Reform party for the position of State Superintendent of Schools, has accepted the nomination of the so-called Opposition party for the same position, and accepted the platform laid down by said party, and by his friends pledged to support the nominees of the convention held August 26, 1874; therefore, Resolved, That it is the opinion of this convention that S. M. Etter has betrayed the confidence of the Independent-Reform party, and that it is the duty of the State Central Committee to consider the position on our ticket forfeited by Mr. Etter, and they should immediately place some other person on the ticket.

THE Indian is thought to be as prominent a type of atrocity as any with which humanity is cursed. He will gloatingly peel from a man his hair and skin, cut him into sausage meat, or fry him like an oyster. Notwithstanding this bad reputation of poor "Lo," it has been eclipsed by three ruffians in Indiana, a State noted for the diabolical nature of its crimes. Three fiends in a white skin caught a poor fellow who was plucking along a railway track last Saturday night, robbed him of his few dollars, and then, with a devilishness unsurpassed by an Indian thief, firmly across the track. There the poor fellow lay until an approaching train forced him, with an angry borne of despair, to free all save the fastening of one leg. Through that limb the train cut, and the man dropped into a culvert, where he lay all night, and in the morning was found with just enough life left in his body to tell the horrible story. Then he died. The crime was one of unparalleled fiendishness, but there is not one chance in a thousand that the murderers will ever be captured. It is a case where the law should be untiring in pursuit, and where sure and swift retribution should follow the capture of the criminals. In no other country would such monsters be allowed to escape.

GENERAL SINGLETON and Col. Richardson, of Quincy, are working against the action of the opposition convention. They will issue in a few days a formidable campaign document for general circulation throughout the State. It will deal the Hosing Palmer party some sledge hammer blows, and will take the ground that the action of the convention was anti-Democratic throughout, therefore all Democrats should oppose it. It will also attempt to show that the action of the State Central committee, in basing the representation of the convention on the total vote of the State, gave the control of that body to the Republican counties, which they assert is contrary to Democratic usage.

THE Buffalo Express seems over-given to metaphor. It says "The Democratic party will use its best of efforts to carry New York State this fall." The amount of whisky and bogus naturalization covered by that modest figure of speech is simply enormous.

SINGULAR ACCIDENT.—A very singular and no doubt fatal accident occurred about 12 miles south of Momence, Ill., on Tuesday last. John Banin, about 21 years of age, and whose parents reside in the village, was helping D. S. Corkings in his haying. On Tuesday afternoon about six o'clock, the hands came up with the last load of hay for the season. Young Banin was on the load. Some one of the hands leaned a pitchfork, times down, against the load of hay. Banin, not knowing the fork to be there, undertook to slide down the load, and came directly upon the handle of the fork. The handle entered his body and passed up to the diaphragm, a distance of sixteen inches, frightfully injuring him. The young man was still alive on Saturday, but there is no hope of his recovery.

THE fact that but few of the farmers of this county participate in the movement which would make a monopoly of the farming business, at the expense of all other interests, is shown that only three out of thirteen precincts in this county sent delegates to the Independent Reform convention in this city last Saturday. Farmers are generally men of good sense, and the majority of them do not see any sense in playing at party making which is sure to be followed by defeat, when they can use their influence and votes to some purpose by acting with one of the two great parties which govern the country.—Jacksonville Journal

THE Springfield Journal says "Hosing has been in consultation with Mr. Etter, the Demo Liberal-Independent-Reform candidate for Superintendent of Public Instruction, and has discovered that he is in favor of free whisky and open saloons on Sunday. Here is what the Boss says, and although it may have been intended only for his Chicago audience, we will give him the benefit of the Journal's circulation among the farmers of the State. "Mr. Etter is opposed to all temperance and Sunday laws. This may lose him the farmers' vote, but it will gain him German and Democratic votes."

VERMONT ELECTION RETURNS.

Goldsmith Maid Goes It in 2:14.

CLINTON, Sept. 3.—In the shooting match, yesterday, W. D. Longnecker won the one hundred and twenty dollar bet set. Where is Dr. Wadams?

COLUMBUS, O., Sept. 2.—The Republican State Convention to day nominated the following ticket: Secretary of State, A. T. Wilcox, Supreme Judge, (long term) Luther Day, (short term) W. W. Johnson, School Commissioner, Thomas W. Harre, Clerk of the Supreme Court, Rodney Ross, Member of the Board of Public Works, Stephen R. Hosmer. These are all re-nominations except Johnson, who is nominated for the unexpired term of Judge Stone, who resigned this day.

The platform re-affirms the principles and policy of the Republican party, eulogizes its achievements, demands honesty in office, favors a tariff for revenue with such incidental protection as may aid and encourage home industry, denounces all forms of repudiation and declares justice and public faith demand that the public debt of the United States be paid in accordance with the laws under which it was created, and that it is the duty of the Government to adopt such measures as shall gradually but certainly restore our paper to a specie standard without shock to the business interests of the country, that when the currency shall have been restored to a specie value, banking should be made free so that the circulating medium may expand or contract according to the demands of commerce or trade, favors appropriate legislation, National and State, to secure cheap and speedy transportation of products of industry; indorses the repeal of the salary bill by Congress, and applauds its reduction of expenses and general reform of abuses, condemns the recent outrages against the colored people of the South, and declares that restraint of temperance and its causes to the full extent of legislative, judicial and police powers of state, and forfeiture of public trust for intoxication are demanded by the moral and material welfare of society and the State.

St. Louis, Sept. 2.—The People's State Convention met at Jefferson City to day, and after organizing appointed a Committee of Conference, one from each Congressional District, to select a ticket. This evening Wm. Gentry, of Pettis county, was nominated for Governor by acclamation, and H. W. Headley, of Greene, for Lt. Governor. The balance of the ticket will be nominated to-morrow.

The platform adopted begins with a preamble setting forth the evils of ring rule, and denouncing the custom of electing State and local officers on national issues as having become one of the chief causes of the reckless partisanship and corruption in public affairs, and declaring it the duty of the people should conduct public affairs on business principles, and choose State officers with reference to their respective duties, and let questions of State salary alone.

They say the State needs order and a faithful enforcement of the laws, that capital and immigration may be induced to come to it, and they demand the suppression of lawless and mob violence and the impartial enforcement of the laws. They declare that the public money belongs to the people and demand that the officer entrusted with it should pledge himself to account to the Treasury for all interest received from public funds.

They oppose any increase of State debt, oppose all combinations which tend to increase the cost of transportation beyond fair rates, and declare a belief that corporations are creatures of and subject to control of the legislative power, but deem it important that legislation shall not be such as to impair the rights or usefulness of such corporations, favor the public school system and demand its perpetuation, oppose frequent sessions of the Legislature, and favor a constitutional amendment making regular sessions quadrennial.

They oppose any further contraction of the national currency as detrimental to the producing classes, and recommend to the people of the various Congressional Districts to elect members who will work for the true interests of the

Products of the west, improvement of the routes of the country, and the means of transportation to the seaboard; the reduction of the tariff, and the adjustment of duties on imports to a revenue basis, the application of the interest bearing debt, the abolition of the monopoly features of our banking system, with as early a return to specie payment as can be effected without disaster to business.

Boston, Sept. 2.—At the second day's races at Mystic Park, to-day, special purses of \$2,500 was offered for the Goldsmith Maid to beat her own record of 2:14, she to have three trials. The Maid appeared between the heats of the second race, and made the first heat in 2:19, going easily all the way around, accompanied by a runner, attached to a buggy and driven by James Golden. The second trial was made under more favorable auspices. The track had been scraped close into the pole. There was absolutely no wind. Budd nodded for the word the first time he came down. The Maid trotted the first quarter in 33; second and half-mile in 1:06, lifting her head once, just before she reached there. The last half mile was trotted without the least show of a break, and she made her best recorded time, 2:14, amid the cheers of the assembled thousands.

New York, September 2.—Rev. Dr. Leonard Bacon contributes a paper to the Independent on the Brooklyn scandal, which is mainly devoted to an attack upon Moulton, and the role he has enacted in the matter as mutual friend. He argues that whether Beecher's or Moulton's story be true, the latter is left in a most unenviable position. Beecher charges him having been for years the chief actor in a base conspiracy, he tells a story very dishonorable to the conspirators, yet not very creditable to his own discretion, and not incredible, all things considered. His conspiracy was to ruin Beecher and his family by false charges. But if Beecher's story be untrue, Moulton still appears, by his own story, to have been engaged in a conspiracy to cover up and compromise a foul wrong against society, to conceal a crime which ought to have been exposed and published. The writer asks if Beecher's charges against Moulton are untrue, why does not the latter bring his accuser before a jury, and concludes as follows: "Doubtless it is the hope of countless multitudes in this and other lands, that Beecher will be triumphant; vindicated, and they are praying that he may be, but they are not praying nor hoping that if he is guilty he may escape detection. Having long honored him as a good man, they believe he is innocent of the wickedness imputed to him, and will believe so till he shall be proved guilty. In that belief they are praying that his innocence may be made manifest, and that those who have conspired to destroy him may be confounded. Beecher's friends do not claim for him immunity in any wickedness. Moulton may negotiate himself into infamy, but he is not counted among Beecher's friends."

MONTEPELLIER, Sept. 2.—Returns still come in slowly, but enough is known to indicate the election of Peck, Republican, by a usual Vermont majority, after allowing for a light vote. The House will be overwhelmingly Republican, the Senate nearly unanimously Republican. One hundred and ten towns return 81 Republicans to 24 Democrats to the Legislature, there being no choice in five towns. In 130 towns Peck has 22,004, Bingham, 8,500. The same towns in 1872 gave Converse, Republican, 24,636, Heaton, 10,513.

The contest in the Second Congressional District has been a very hot one and the result is the defeat of Poland. The voters mainly supported Hon. D. C. Dennison, of Royalton, in Windsor county, but their advice to their followers was to vote for anybody to draw v. away from Poland. Forty towns gave Poland 3,852, Dennison, 5,251.

CHICAGO, Sept. 2.—The Republican Congressional Convention of the Sixth Illinois District at Princeton, yesterday remained in session till near midnight, and taking 147 ballots without making a nomination. The vote stood Hawley 26, Henderson 22, Lynde 19, on the first to the twentieth ballot, and from the twentieth to the sixtieth, slight variations were shown in the Henry delegation, Henderson 27, Hawley 26, Lynde 24. Lynde soon lost his gain, and on the 89th ballot, Henderson had 27, Hawley 26, Lynde 14, with a vote thrown away on N. H. Pratt, a Henry county delegate. The Convention met again at 8 o'clock this morning.

A Journal special from Princeton, Ill., says that the Republican Convention of the Sixth Illinois District met this morning, and after taking one ballot without a change from the last ballot of yesterday, took a recess, and up on re-assembling Lynde's supporters went over in a body to Col. T. J. Henderson, whose nomination was then made unanimous.

Clough, of Harrison, "Lady Powers"; A. Culp, city, "Monarch"; a stallion from Panama completed the list. All are 2:40 horses, and a handsome brush may be expected.

Everybody should go to Coffeen's Book Store.

Coming In.—We noticed in town this morning people from all parts of the country who came in to attend the county fair. As a general thing those who come in wagons are well stocked with provisions, and will make their attendance upon the fair a most of basket picnic, taking their dinners in families and groups upon the fair ground. This is a very pleasant arrangement for families, and furnishes them a holiday of the most enjoyable kind. At noon upon the ground a large number of these groups may be seen doing justice to the choice viands provided for the occasion.

Nice Peaches are received daily by E. H. Pratt & Son.

Agricultural.—Farmer Coltrin having been very busy on his farm, hoeing his early wagon-hubs and making entries at the county fair, he has not had time to publicly acknowledge the receipt from Mr. W. J. Crow of a mammoth radish, weighing 15 pounds. He thinks it is of the horse variety, and intends planting the seed and raising a lively stable.

School Books for everybody, at Coffeen's.

Young People's Festival.—The young people connected with the First M. E. congregation will hold a sociable and festival on Friday evening of this week, in the basement rooms of the church. Those who attended the one held a few weeks since will remember the occasion as one among the pleasantest of the kind they ever enjoyed, and will be likely to attend this. All are cordially invited, and a right good time will be enjoyed. A variety of refreshments will be served in the young people's best style.

COUNTY FAIR.

More Entries Than Anticipation.
Premises Filled.

THURSDAY—THIRD DAY.

During Wednesday afternoon quite a number of new entries were made, and the articles to be exhibited put in their proper places. Among the entries made yesterday were several lots of corn, which, though the season is rather too early for fully matured corn, is of excellent quality. Fine samples of wheat, rye and oats were also put on exhibition yesterday. Several varieties of fruit were also added to the list of entries, which present a very creditable appearance.

Quite an addition was also made to the needle and fancy work departments. In this department the show probably equals and perhaps exceeds that of any previous year.

Notwithstanding the threatening appearance of the clouds in the morning, the attendance of people from the country is large, the grove east of the ground and the ground north of the amphitheatre being full of teams. There was also a very fair attendance of town people, which if it does not rain will be greatly increased this afternoon. Judging from the appearance up to noon to day, with a continuation of good weather, the fair may be regarded as a success this year.

The following are the premiums awarded up to noon to day:

On Wednesday the gate receipts were \$875 15, and today, it is supposed, they have reached \$800; and it is safe to calculate they will reach \$1,200 by night. It is now certain that the fair is a success financially, and that all the old indebtedness will be swept of this year.

The programme for to-morrow will be exhibition of jacks and mules, draft horses, saddle horses, roadsters, mares and geldings, and carriage teams.

The races will be as follows: Trotting race, citizens purse.

A Culp names gray stallion, Monarch. S. Potter names bay stallion, Dyke. T. F. Wilkins names bay stallion, Geo. M. Patchen. Mile heats best three in five. Running race. One-half mile and best, five to six.

Our reporter is indebted Mr. Fulton, Jim Hart and George Downing for passage to and from the fair ground. George drives a spanking span and puts you through by daylight.

Theatre.—Miss Denlin's company had a better house last night than on any previous evening, but still too small. The pieces were well put upon the stage, and elicited the utmost satisfaction from the audience. To-night will be given an entire company of three operable forces, bringing out the full force of the entire company. Let the house be filled.

POLICE COURTS.

Officer Tim Connelly arrested an intoxicated bummer at the depot yesterday, named John Sebey. He was waltzed up before Justice Hughes, who administered a fine of \$3 and costs. The bucolic prisoner had evidently made ample preparations for going on a bust, as he pulled out a roll of bills and promptly liquidated the little account.

His honor, Justice Goodman, disposed of a number of civil suits yesterday.

Light weight Cassimeres, at cost, at Race's.

Pure Water.—It is expected that the construction of a filter in connection with the water works will give pure, clear water to consumers, suitable for cooking and drinking purposes, and it is thought that for this reason many more families will be induced to take water than is now the case, and that the revenue from the works will be largely increased.

F. Barber & Co. are in dead earnest when they talk about selling at cost. The rapidity with which boots and shoes have walked out of this establishment for the past two weeks is a caution to high prices, and all false pretences of selling at cost. Folks have found out that the thing "is done here for sure."

A Novelty.—Among the numerous articles on exhibition at the county fair are the bells belonging to the Smith Bell-ringers. They were made by Mr. Smith himself, and are said to be the finest toned bells in this country.

Nice ready-made boots and shoes at J. P. Marsh's, and fine boots made to order. Perfect fits guaranteed.

In Good Time.—The rains of last week put the ground in fine condition for the reception of fall wheat, and our farmer friends are hard at work ploughing their fields and sowing their seed. A wider breadth will be sown in this county this present season than ever before.

Nice sweet butter and fresh eggs at Neidermeyer's.

The cider firm of Michael Lee & Co. has been removed by the proprietors from its former location in front of I. W. Ehrig's store to the corner of Main and Water streets.

You can buy at Weesels a fine pair of Ladies Garters for \$1.50. Call and examine before you buy at cost.

How to Get Stamina.—Iron frames and strong nervous systems are not the result of all. But the feeble need not despair. By adopting the right means they may live as long and enjoy life as much as the more robust and vigorous. Physical invigoration is, however, necessary to the end, and while the virtuous and actually serving usually are interested in Dr. J. WALKER'S CALIFORNIA VIGOR-BUILDING INVARIABLY supply new vigor to the frame, while they regulate every disordered function.

FUNERAL OF DR. READ.

The funeral obsequies of Dr. Thomas H. Read took place at 9 o'clock this morning, at the Baptist Church. At an early hour the seats in the audience room, except those reserved for the family and friends, were filled by persons who had come to pay the last and testimonials of respect to the memory of the honored dead. Among those present were many of the prominent citizens of this city, and a large number of friends from the surrounding country. The body, confined in a neat casket, was borne into the church by the following pall-bearers: Hon. R. J. Oglesby, Rev. F. N. Briggs, Thomas Hays, Jesse L. Fenton, Lowber Burrows, and George Wood. The entrance of the funeral cortege was the signal for the commencement of a dirge upon the organ, and the choir sang "The Lord's Prayer" and "Amen." This was succeeded by scriptural readings, prayer, and then the hymn, "Sleep in Jesus."

Rev. Robert MacKenzie, pastor of the Presbyterian Church, then preached a brief and appropriate discourse, after which the remains were taken to Greenwood Cemetery for interment, followed by the pulpit and reading desk of the church were handsomely decorated with flowers, deftly wrought into forms of beauty by the ladies of the congregation.

RESOLUTIONS OF RESPECT AND CONDOLENCE.

At a special meeting of the Decatur Medical Society, held Sept. 2, 1874, at the office of Drs. Moore & Barnes, Dr. Ira Barnes was called to the chair, and Dr. Wm. H. Walters appointed Secretary.

Dr. McBride then stated the object of the meeting—the death of Dr. Thomas H. Read, and moved that a committee of three be appointed to draft a preamble and resolutions expressive of regard for the deceased.

The chair appointed Drs. S. McBride, J. Stebbins King and Wm. A. Walters, who reported the following:

WHEREAS, in the dispensation of an All Wise Providence, it has become our painful duty to record the death of our much endeared and valued associate, Dr. Thomas H. Read, who died on the first day of September, 1874; and

WHEREAS, in token of the high esteem the members of this society and the community generally have placed upon the character and usefulness of our deceased friend and colleague, in the science of medicine; be it therefore

Resolved, That in the death of Dr. Read the medical profession has lost one of its truest and most honorable members, a man who possessed some of the loftiest traits of professional character, combined with many of those virtues which adorn and ennoble humanity.

Resolved, That a copy of these proceedings be transmitted to the widow of the deceased, with the assurance that the members of this society deeply sympathize with her in her great affliction.

Resolved, That in token of our respect for the deceased we will attend his funeral, and published in the city papers.

The Question Answered.—How Linn & Scruggs employ so many salesmen and sell goods cheap? They keep the largest stock of dry goods in Decatur—they retail more goods than any other Dry Goods House in the United States, according to population, and their expenses are less in proportion to sales. Besides they are thus enabled to buy most of their goods of first hands and by the Case and Package, which gives them great advantage over small dealers. Jan 2-d5w1
